Work with clients to help organize and design their ideas. Translate these ideas to design plans. Assign jobs to the most qualified artist on the team or design the jobs if it was required. Get a finished product for digital or print application. Work on the production of print materials like flyers, banners, wall graphics and more. Supervise implementation, installation and production of the client's finalized product according to their budget and design requests.

Manage employees' tasks for day workflow. Manage inventory and waste percentage stats to ensure proper use of monthly budget and ensure correct amounts of materials for purchase. Work employee payroll and documents along with HR for promptness in the approval of vacation, sick days or other requests.
